

PART E: MORRISON SECURITIES EQUITIES TERMS & CONDITIONS

for clients of Enrizen Capital Pty Ltd ACN 169 695 649 CAR No. 458743 of Enrizen Pty Ltd AFSL No. 403905 ABN 64 107 643 809 (INTERMEDIARY)

TERMS OF YOUR AGREEMENT WITH MORRISON SECURITIES PTY LIMITED ABN 50 001 430 342 AFSL No. 241737 (Morrison Securities)

1. Your agreement with Morrison Securities

Morrison Securities is admitted as a Trading Participant of one or more Australian Exchanges. Morrison Securities is also admitted as a Clearing Participant in accordance with the operating rules of ASX Clear Pty Limited ABN 48 001 314 503 (**ASX Clear**), a wholly owned subsidiary of ASX Limited ABN 98 008 624 691 (**ASX**) and Chi-X Australia Pty Ltd ABN 47 129 584 667 (**CHI-X**).

By placing an Order with the Intermediary (as your agent) to purchase or sell Exchange Traded Products by means of an Exchange Transaction, you accept and agree to be bound by the terms and conditions set out below in this document (**Terms and Conditions**).

If you wish to buy or sell or otherwise deal in Exchange Traded Products on an Australian Exchange, the Intermediary will (as your agent) communicate your Order to Morrison Securities. Morrison Securities will, subject to these Terms and Conditions, execute or facilitate that Order on your behalf and will clear and settle the Exchange Transactions that result from the execution or facilitation of your Orders. Accordingly, Morrison Securities will carry the obligations to complete the sale or purchase, together with all the obligations which are ancillary to the completion (**Settlement Obligations**). Morrison Securities must also settle such Exchange Transactions as principal with ASX Clear or the relevant counterparty even though the Exchange Transaction was entered into on your behalf. Accordingly, your clearing and settlement obligations under the sale or purchase contract are owed directly to Morrison Securities and not to the Intermediary.

In the event that you fail to complete a contract in accordance with the ASX Clear Rules or fail to pay the amounts due in respect of an Exchange Transaction, Morrison Securities has direct rights against you, including rights of sale under the ASIC Market Integrity Rules, Exchange Rules and ASX Clear Rules and those described in these Terms and Conditions.

2. Conduct of Business

You acknowledge and agree:

- a. to comply with these Terms and Conditions, all applicable laws, the ASIC Market Integrity Rules, Exchange Rules, ASX Clear Rules and ASX Settlement Rules and the directions, decisions and requirements of each Relevant Exchange and the customs and usages of the Market. Upon request, you are able to inspect copies of the ASIC Market Integrity Rules, Exchange Rules, ASX Clear Rules and ASX Settlement Rules at the Intermediary's offices; and
- b. that all Exchange Transactions are subject to the ASIC Market Integrity Rules, Exchange Rules, ASX Clear Rules, the directions, decisions and requirements of an Australian Exchange and the customs and usages of the Market, the correction of errors and omissions and, if the sale or purchase is in relation to Exchange Traded Products approved for settlement by ASX Settlement, the ASX Settlement Rules.

3. Sponsorship

If you are not currently sponsored by Morrison Securities, Morrison Securities recommends that you enter into a Sponsorship Agreement with Morrison Securities to enable easy transfer of your Exchange Traded Products under CHESS (**Clearing House Electronic Subregister System**).

4. Orders and instructions

You agree that:

- a. if you wish to place any Order, you must do so with the Intermediary (such communications to be given in the form and manner agreed with the Intermediary from time to time), and you authorize the Intermediary, as your agent (and not as the agent of Morrison Securities), to communicate your Order and other instructions or information to Morrison Securities;
- b. Morrison Securities may provide communications to you through the Intermediary and not directly to you.

Morrison Securities will not act on any Orders or other instructions or information communicated directly to it by you (and not the Intermediary). You may only terminate the Intermediary's authority to act on your behalf by terminating this agreement.

As a Participant of one or more Australian Exchange, subject to your instructions, Morrison Securities is required to handle and execute Orders in accordance with the ASIC Market Integrity Rules. A copy of the Morrison Securities Best Execution Policy as at the date of

these Terms and Conditions is attached as Schedule 4. Morrison Securities may from time to time amend its Best Execution Policy and make such amendments available on its website or through the Intermediary, or otherwise notify you of the amended Best Execution Policy.

Morrison Securities may at any time, in its absolute discretion, refuse to accept any Order from, or execute Orders for you. For example, Morrison Securities may refuse to accept your Order if it would require Morrison Securities to act otherwise than in accordance with its Best Execution Policy.

Subject to any instructions from you, Morrison Securities will generally execute Orders in the sequence in which they are received. However, you acknowledge and agree that:

- a. Your Order may be automatically crossed against other orders before reaching the Market;
- b. Morrison Securities may not be aware of principal orders that are being (or may be) executed, and that direct market access arrangements and program trading may make it impossible to prevent principal orders from being executed at the same time as (or before) your Order. Accordingly, you agree that Morrison Securities may execute principal orders where your Order on the same terms is outstanding and that these Terms and Conditions constitute disclosure as required by the ASIC Market Integrity Rules. Unless you notify Morrison Securities to the contrary, you will be taken to have consented to Morrison Securities (and/or any of its related bodies corporate) trading as Principal with you and agree to pay such commission (if any) on such transactions, each time you place an order with Morrison Securities through the Intermediary;
- c. you will be charged the normal rate of commission by the Intermediary for Orders which are crossed with Morrison Securities principal orders unless, if you are a retail client (as defined in the Corporations Act), we are not permitted to do so under the Corporations Act or the ASIC Market Integrity Rules; and
- d. an Order once accepted by Morrison Securities may not be transacted and an Order to transact an AQUA Product through the ASX Managed Fund Settlement Service is subject to acceptance by the issuer of the product and an application for issue or redemption of a product may be rejected; and
- e. an Order to transact in an AQUA Product is not traded on a Australian Exchange and comprises an application by you to the relevant product issuer. You acknowledge and agree that:
 - i. Morrison Securities does not control and cannot procure the issue or redemption of AQUA Products or the processing of requests for issue or redemption of, or switch between, AQUA Products;
 - ii. Morrison Securities has no liability to you or the Intermediary with respect to any action or failure to take action by an issuer or other Settlement Participant in connection with a request for issue, redemption or switch of AQUA Products including (without limitation) an issuer's failure to issue or redeem AQUA Products or make available redemption monies or to deliver AQUA Products.

5. Orders relating to sales

You agree that whenever you place a sale Order with the Intermediary, you must notify the Intermediary whether or not your sale Order is a covered short sale – i.e. a sale where you have, at the time you place the sale Order with the Intermediary, a legally binding commitment from a securities lender to lend the securities to you under a Securities Lending Arrangement.

Where your sale relates to a covered short sale, you must also inform the Intermediary at the time of placing the sale Order:

- a. the number of Exchange Traded Products to be sold that are to be delivered under the Securities Lending Arrangement;
- b. a description of the Exchange Traded Products (e.g. fully paid ordinary shares); and
- c. the name of the entity that issued the Exchange Traded Products (e.g. Westpac Banking Corporation).

You acknowledge that Morrison Securities will not be permitted to execute a sale Order for you unless you have informed the Intermediary whether or not the sale Order relates to a covered short sale. You agree that, each time you place a sale Order with the Intermediary and notify the Intermediary that the sale Order relates to a covered short sale, you will be taken to have warranted and represented to Morrison Securities and the Intermediary that the sale will meet the requirements and conditions of the Corporations Act, Corporations Regulations and ASIC Class Orders (if any) (as amended from time to time) relating to covered short sales, (including without limitation that you have obtained a legally binding commitment from a securities lender to lend the relevant securities to you under a Securities Lending Arrangement).

6. Orders to purchase Warrants

If you place an Order to purchase Warrants, the terms in Schedule 1 will apply to you.

7. Orders to purchase partly Paid Securities

If you place an Order to purchase Partly Paid Securities, the terms in Schedule 2 will apply to you.

8. The Intermediary's use of a DMA Service

Morrison Securities may provide a direct market access service (**DMA Service**) to the Intermediary under which the Intermediary may place your Orders directly into the Trading Platform through an electronic automated client order process. You acknowledge that if Morrison Securities provides a DMA Service to the Intermediary:

- a. There may be delays in the processing, execution, amendment or cancellation of an Order entered through the DMA Service and:
 - i. an Order may be wholly or partly filled before an instruction for its amendment or cancellation is processed; and
 - ii. you remain liable to settle the original Order, until any relevant amendment or cancellation is effected;
- b. The execution of an Order placed through the DMA Service may be delayed by filters or other electronic features of the electronic system;
- c. Morrison Securities is not responsible for the processing, execution or cancellation of any Orders submitted through the DMA Service, regardless of who enters such Orders and regardless of whether or not there is an error in the Order entry or for any delays in relation to the same;
- d. except as required by law, Morrison Securities makes no representations or warranties express or implied with respect to the DMA Service;
- e. there are significant risks in trading through a DMA Service because it is serviced by means of computer and telecommunications systems, even where generally accepted industry standards and practices are followed, including that your data may not be protected, and there are risks that other users of the DMA Service, institutions or intermediaries may be able to see your Orders and other communications relating to trading and execution without your (or Morrison Securities) consent and that third parties (including persons on private networks) will have the ability to attach to your network; and
- f. Morrison Securities may terminate the Intermediary's participation in the DMA Service at any time without notice to you.

9. Client's use of a DMA Service

Morrison Securities may provide a DMA Service to you under which you may place your Orders directly into the Trading Platform through an electronic automated client order process. You acknowledge that if Morrison Securities provides the DMA Service to you, the terms in Schedule 3 will apply.

10. Morrison Securities right to require the Intermediary to refuse to accept Orders

You acknowledge that Morrison Securities may at any time in its absolute discretion direct the Intermediary to:

- a. refuse to accept you as a client or not to accept Orders from you; or
- b. refuse to accept a particular Order from you.

11. Purchases and Sales

You must ensure that payment in full is received by Morrison Securities (and not the Intermediary) before the Settlement Date and Time. Morrison Securities will not accept payment in cash. If the Intermediary previously arranged for your Exchange Transactions to be executed by an ASX participant other than Morrison Securities, and you had authorised that other ASX participant (or an Clearing Participant that clears and settles transactions executed by that other ASX participant) to withdraw funds from your cash management account or account with a financial institution (**CMA**) in order to settle Exchange Transactions executed by that other ASX participant for you, you will be taken, when you first place an Order with the Intermediary to be executed by Morrison Securities, to have authorised Morrison Securities (on the same terms as the authority granted to that other ASX participant or Clearing Participant) to withdraw funds from your CMA in order to settle Exchange Transactions which the Intermediary has arranged for Morrison Securities to execute for you, In accordance with the provisions of the Corporations Act), and the regulations made under the Corporations Act, pending settlement by you, these Terms and Conditions and the relevant Confirmation (if any) constitutes notice to you that Morrison Securities may deposit the Exchange Traded Products purchased for you in a particular transaction as security for a loan if Morrison Securities has received and paid for such Exchange Traded Products on your behalf. You must deliver to Morrison Securities (and not the Intermediary) all documents and security holder information (including the holder identification number or personal identification number and, if applicable, holder reference number) (**Security Holder Information**)

no later than two business days before the Settlement Date and Time.

All documentation and Security Holder Information must be sent to:

Morrison Securities Pty Limited
Level 7, 7-15 Macquarie Place
Sydney NSW 2000

If you have entered into a Sponsorship Agreement with Morrison Securities, you will be taken to have satisfied this obligation if you ensure that sufficient Exchange Traded Products are held in your Sponsored Holding with Morrison Securities, those Exchange Traded Products are unencumbered and, if the consent of any third party is required before Morrison Securities may withdraw those Exchange Traded Products, that consent has been obtained and communicated to Morrison Securities.

You irrevocably authorise Morrison Securities to apply any Exchange Traded Products held in your Participant Sponsored Holding to satisfy your Settlement Obligations arising from any Exchange Transaction executed by Morrison Securities on your behalf.

Credits in respect of sales are not available until the latest of:

- a. the Settlement Date and Time;
- b. when all documents and Security Holder Information have been received by Morrison Securities in deliverable form; and
- c. all amounts due and payable by you to Morrison Securities or the Intermediary have been paid.

Unless Morrison Securities has agreed alternative arrangements with you, Morrison Securities will pay all sale proceeds directly to you.

12. No Advice

You acknowledge that Morrison Securities does not provide financial product advice, nor does it accept responsibility for any financial product advice given to you by the Intermediary. You must not represent to any person that Morrison Securities has given any financial product advice to you.

You also acknowledge that the manner in which Morrison Securities may exercise or not exercise, or the timing of or any delay in any exercise by Morrison Securities of any right of Morrison Securities is not to be taken to be financial product advice by Morrison Securities,

If requested by you, Morrison Securities will, if required under the ASIC Market Integrity Rules, give you a statement of all the individual prices of the relevant transactions which are accumulated and averaged in a Confirmation.

If you are a Wholesale Client for the purposes of the ASIC Market Integrity Rules, Morrison Securities may elect not to give any Confirmations to you in relation to Exchange Transactions executed for you. If Morrison Securities so elects, these Terms and Conditions are taken to be the notification required to be given by Morrison Securities to you under the ASIC Market Integrity Rules.

As Morrison Securities is a Participant of one or more Exchange Exchanges and a Clearing Participant of ASX Clear, you may be entitled to make a claim on a compensation fund (such as the National Guarantee Fund (**NGF**) or the Chi-X Fidelity Fund) in the circumstances specified under Part 7.5 of the Corporations Act and the Corporations Regulations 2001 (Cth). For more information on the circumstances in which you may make a claim on a compensation fund contact:

• in relation to transactions on ASX and the NGF, you can contact ASX or the Securities Exchanges Guarantee Corporation Limited ABN 19 008 626 793; or

• in relation to transactions on another Australian Exchange, you can contact that Relevant Exchange.

The Chi-X Operating Rules require the following disclosure to be given to retail clients of Morrison Securities:

"Chi-X and ASX operate different compensation funds that provide protection for retail investors in the circumstances defined in the Corporations Act and Regulations.

The Chi-X compensation fund covers losses resulting from defalcation or fraudulent misuse of your money, property or authority by a Chi-X participant, subject to certain exceptions. In circumstances where your stockbroker is also an ASX participant, the following applies in relation to such a loss.

If you do not expressly or impliedly instruct your stockbroker, who is a Chi-X participant, to execute your trading instructions on the Chi-X market, and it is not reasonably apparent from the usual business practice of your stockbroker which of the ASX or Chi-X market the participant would use when acting for you, the Chi-X fund will not apply. In this case, the NGF may apply, provided the loss is connected to the ASX market and is covered by the NGF claims provisions. The NGF claims provisions are set out in Division 4 of Part 7.5 of the Corporations Act and Regulations (for further information see the legislation and the NGF Information Booklet available at www.segc.com.au). Note that if your stockbroker is not an ASX participant, the NGF will not apply in any circumstance."

Morrison Securities takes no responsibility for the accuracy of this disclosure. If you have any queries concerning the content of the above disclosure, please contact Chi-X directly on (02) 8078 1700.

SCHEDULE 4

MORRISON SECURITIES BEST EXECUTION POLICY

1. INTRODUCTION

The Australian Government introduced legislation to allow for competitive stock exchanges within Australia, in accordance with the ASIC Market Integrity Rules, Morrison Securities Pty Limited (**Morrison Securities**) as a Market Participant has an obligation to obtain the best outcome for its clients when handling and executing client orders in Equity Market Products, where those products relate to trading on the Australian exchange(s). Equity Market Products includes shares, interests in managed investment schemes (including exchange-traded funds), rights to acquire shares or interests in managed investment schemes under a rights issue, and CHES Depository Interests (CDIs) admitted to quotation on ASX. Morrison Securities is also required to establish and implement policies and procedures designed to achieve the best possible outcome for Retail Clients and Wholesale Clients when executing client orders or receiving and transmitting orders for execution. The obligation to obtain the best possible outcome for Clients is referred to in this policy as the "Best Execution" obligation.

This Best Execution policy is designed to provide Clients with a reasonable amount of information in order to allow clients to make an informed decision about whether to instruct Morrison Securities to handle, transmit and execute Orders.

2. MARKET PARTICIPATION AND EXECUTION VENUES

Morrison Securities is a Market Participant of both ASX and Chi-X. Accordingly, the Order Books to which Morrison Securities may transmit your orders may be transmitted for execution are the ASX Trade Match, ASX Centre Point, ASX Volume Match, ASX PureMatch platforms operated by ASX and Chi-X to meet the Best Execution obligations.

The Order Book to which Morrison Securities will transmit your orders will be determined in accordance with the procedures below depending on whether you are a Retail Client or Wholesale Client, as those terms are defined in the Corporations Act.

3. BEST EXECUTION OBLIGATION

Morrison Securities will take all reasonable steps to obtain the best possible outcome for its Clients. Best outcome means different things for different Clients.

3.1 Retail Clients

For Retail Clients best outcome will mean best total consideration being the purchase price paid by the Client plus transaction costs; or the sale price received minus transaction costs, where transaction costs means all costs paid by a Client that are directly related to a particular transaction. If you are a Retail Client this will mean that Morrison Securities will always attempt to obtain the best total consideration for your order unless you specifically instruct us otherwise. Specific instructions must be clear and unambiguous and in writing. Morrison Securities reserves the right to decline an order which includes instructions which are not consistent with obtaining Best Execution and trading rules may however prevent Morrison Securities from following the Client's instructions or achieving Best Execution.

3.2 Wholesale Clients

For Wholesale Clients, best outcome will include price, cost total consideration, speed, likelihood of execution and any other relevant order consideration or specific instructions. Again, specific instructions must be clear and unambiguous and in writing. Morrison Securities will generally give price a higher relative importance when obtaining the best outcome but may also take into consideration a range of different factors, including the requirement for timely execution, the liquidity of the market, potential price impact, and the size of the order.

4. ORDER HANDLING

When Morrison Securities receives, transmits or executes orders in relation to Equity Market Products on behalf of the Client, Morrison Securities will take all reasonable steps to achieve Best Execution. An order may be received by Morrison Securities via email, telephone, facsimile or via the Morrison Securities automated client order processing system (**ACOP**). Where a Client (or representative of an Australian Financial Services Licensee on behalf of its client) sends an order to Morrison Securities the order will be subject to the filters on the ACOP system and where it meets all the filters it will be placed into the ASX central order limit order book or CHI-X central

limit order book. Any order sent via ACOP that does not meet these filters will be referred to a Designated Trading Representative (DTR) who is then required to make relevant enquiries of the order placer and manually enter the order into the relevant order book if it has satisfactorily met all due enquiries.

Morrison Securities uses the Smart Order Router supplied by external vendor IRESS known as Best Market Router (BMP), to manage Morrison Securities' Best Execution obligations across ASX and Chi-X markets for Equity Market Products. In certain circumstances Morrison may also direct orders manually into a specific order book. All orders that will trade fully or partially immediately will be entered into the relevant market by Morrison Securities DTR's, via ACOP or via the Smart Order Router or by being directed to the appropriate order book.

Once the available volume has been exhausted within the relevant price parameters then the order will reside with the ASX market subject to specific instructions from the client. Any client orders that are not market orders will be entered into the ASX market, subject to specific instructions from the client. If the price on the Chi-X market changes after the order has been routed to the ASX market the order will not be transmitted to the Chi-X order book unless there is a specific instruction from the Client as to do so would mean a loss of priority. Similarly, any Wholesale Client iceberg order relating to new portions of the hidden order that become pro-trade transparent will lose priority.

5. SPECIFIC CLIENT INSTRUCTIONS

Any specific instructions provided by Clients will be adhered to by Morrison Securities, and by doing so, the Client may not receive Best Execution. Instructions must be given verbally or in writing and must be provided in a manner that is clear and unambiguous. Morrison Securities will take all reasonable steps to handle and execute client orders in satisfaction with Client instructions.

Wholesale Clients are able to provide Morrison Securities with standing instructions and these must be in writing. Wholesale Clients are also able to opt-out of Best Execution by providing Morrison Securities with standing instructions which are applicable for 12 months. Any Wholesale Client wishing to opt-out for any periods extending past the initial 12 month period will need to renew the standing instructions every 12 months.

6. VENUE AVAILABILITY

Post the interim period, it is important to note that:

- in circumstances where one market (either ASX or Chi-X) will not be available for trading, is unresponsive or disorderly, orders will be routed to the alternative market unless the client gives express instructions to the contrary.
- the Chi-X and ASX markets do not operate in a similar fashion and in particular the opening and closing market times vary, Chi-X commences trading at 10am and closes at 4.12pm (Australian Eastern Standard Time) with no auction on the open, close or intra-day trading halts as there is for ASX.
- the ASX Purematch trading hours are the same as ASX TradeMatch however there is no auction before and after the standard trading. These variances mean that it may be very difficult to determine where the best outcome might be achieved.
- orders in Chi-X are "day only" orders and will all be purged at the end of trading for the day. This should only impact those orders that have been specifically transmitted to Chi-X and clients should give instructions to transfer orders from this market if they wish to participate in the end of day ASX auction.
- Morrison Securities has chosen to use ASX as the default and therefore all orders will be transmitted to ASX TradeMatch for the auction unless a specific order to the contrary is received.

Any suspension of an equity market product precludes Morrison Securities from transacting or matching on all licensed markets unless such suspension is due to a technical failure.

7. CROSSINGS

In addition to crossings on either of ASX or Chi-X markets it is possible for Morrison Securities to operate its own crossing system. Such a system is an automated service provided by Morrison Securities to its Clients that matches or executes Client orders with orders of Morrison Securities or its Clients. Morrison Securities does not currently operate such a market. If it is deemed appropriate to transmit an order for a Wholesale Client to an existing crossing market with another Market Participant then that other Market Participant will be required to provide best execution.

8. MONITORING AND REVIEW

Morrison Securities will monitor the effectiveness of this Policy on a regular basis and at least annually. It will also review this Policy whenever there is a material change that affects the receipt transmission and execution of a Client order to ensure the Policy remains adequate. On receipt of a reasonable request by a client we will provide the Client with evidence that the order has been executed in accordance with our Policy and will advise the Client of the estimated time to provide the necessary information.

PART F : CHESS SPONSORSHIP

to clients of Enrizen Capital Pty Ltd ACN 169 695 649 CAR No. 458743 of Enrizen Pty Ltd AFSL No. 403905 ABN 64 107 643 809 (Intermediary)

MORRISON SECURITIES EXPLANATION OF CHESS SPONSORSHIP

1. Explanation of Chess Sponsorship Agreement

This document explains the effect of the CHESS (Clearing House Electronic Subregister System) sponsorship agreement (Sponsorship Terms) if you (Client) enter into the Sponsorship Agreement with Morrison Securities Pty Limited (Morrison Securities). It is important that you read this explanation and the Sponsorship Terms and understand their content before signing the Client Application Form (which includes the Sponsorship Terms). By signing the Client Application Form, you acknowledge that you have understood the effect of the Sponsorship Terms.

You are entitled to receive a copy of the executed Sponsorship Terms. You can request a copy of the executed Sponsorship Terms by contacting the Intermediary.

2. What is the purpose of the Sponsorship Terms?

The Sponsorship Terms appoint us as your "controlling participant" on CHESS. CHESS is a system of registering financial products on computer so instead of holding certificates to show that you own shares or other financial products, under CHESS you have financial products registered in your name to show that you own them. CHESS is operated by ASX Settlement Pty Ltd ABN 49 008 504 532 (ASX Settlement) under the ASX Settlement Rules. Only certain people may control financial products on CHESS (we fall under one of these categories).

By signing the Client Application Form, you appoint us as your controlling participant to control your holding of financial products on CHESS. In other words, we "sponsor" your holdings of financial products on CHESS.

3. Explanation of the Sponsorship Terms

a. Clause 1 - Our authority and obligations

In clause 1 you authorise us to act as your agent on CHESS in respect of your holding(s) of the financial products identified by your HIN on Client Application Form.

Clause 1 also sets out our obligations in relation to the transfer of financial products into or out of your holding. Importantly, we will not usually initiate any transfer or conversion of financial products into or out of your holding without your express authority. However, in limited circumstances, for example, if we ask that you pay for financial products and the purchase price for those financial products remains unpaid, we may sell those financial products at your risk and expense.

Clause 1 also identifies the regulatory regime which applies to us and with whom a complaint against us may be lodged.

b. Clause 2 - Acknowledgements by you

Clause 2 contains certain acknowledgements by you. These acknowledgments are that:

- you have understood the effect of these Sponsorship Terms;
- if you die or become bankrupt, your sponsored holdings will be locked (holder record lock);
- if you die, the Sponsorship Terms remain in operation, with your legal representative authorised to administer your estate for up to three months after the removal of the holder record lock;
- if we are not a Market Participant of ASX, neither ASX nor a Related Body of ASX has any responsibility for supervising or regulating the relationship between you and us (we note however that we are a Market Participant of ASX);
- in the event of your death or bankruptcy, where a joint holding exists, we will establish a new holder record in the name of your joint holder or take steps to protect the interest of the joint holder not subject to the bankruptcy order;
- if a transfer of a financial product included in your holding is effected in accordance with the ASX Settlement Rules, then:
 - you may not assert or claim against ASX Settlement or the relevant issuer of the financial product that we were not authorised by you to effect that transfer; and
 - unless the transfer was taken to have been effected by a Market Participant of ASX or a Clearing Participant of ASX Clear, you have no claim arising out of the transfer against the national guarantee fund under the Corporations Regulations (again we note however that we are both a Market Participant of ASX and a Clearing Participant of ASX Clear).

c. Clause 3 - Security, other interests and subpositions

If you instruct us to lodge financial products as cover for written position in relation to exchange traded options or advise us that an interest has been or will be created over financial products, you give us authority to give effect to your instructions. However, please note that we must always act within the ASX Settlement Rules. You should be aware of the provisions in the ASX Settlement Rules and ASX Clearing Rules as to ASX Clear's power to deal with the

financial products on default by the Clearing Participant and in particular, ASX Clear's power of sale in relation to the financial product without any notice to you.

d. Clause 4 - Information

You must promptly give us any information or documents we ask for to enable us to perform our obligations to act as your controlling participant or comply with the ASX Settlement Rules and requirements.

e. Clause 5 – Fees and Indemnities

Clause 5 states that you must pay us fees under the Sponsorship Terms as advised by us from time to time. There are currently no fees payable by you in connection with the Sponsorship Terms.

In clause 5, you also indemnify us – that is, you agree to be responsible for and pay on our demand – for liabilities, losses or costs we suffer or incur:

- i. in connection with performing our obligations under the Sponsorship Terms;
- ii. in connection with us acting as your controlling participant or agent for the purposes of CHESS; or
- iii. if you do something you agree not to do, or don't do something you agree to do, under the Sponsorship Terms.

Under clause 5 you also authorise us to debit any amount you owe us to any account you have with us.

f. Clause 6 - Suspension from CHESS

If we are suspended from CHESS participation, you may instruct ASX Settlement to remove your sponsored holdings from the CHESS subregister or move them to another controlling participant in CHESS. If you do not give ASX Settlement such notice within 20 business days, ASX Settlement may change your CHESS sponsor.

g. Clause 7 - Complaint procedures

You have certain rights if you wish to claim compensation or make a complaint against us. In particular, if we breach the Sponsorship Terms, you may refer that breach to any regulatory authority including ASX Settlement. If we breach a provision of the Sponsorship Terms and you make a claim against us, our ability to satisfy that claim will depend on our financial position. If a breach by us of a provision of the Sponsorship Terms falls within the circumstances specified in Part 7.5, Division 4 of the Corporations Regulations, you may make a claim on the National Guarantee Fund for compensation.

h. Clause 8 - Change of controlling participant

Clause 8 contains provisions setting out what is to happen if there is a significant change to the organisational structure of our group or the whole of our business is to be transferred to another controlling participant. In particular, those provisions provide for the novation of the Sponsorship Terms to another controlling participant without the need for you to sign a new sponsorship agreement.

i. Clause 9 - Termination

The Sponsorship Terms are terminated if we become insolvent, if our participation on CHESS is terminated/suspended, if either party notifies the other that it wants to terminate the Sponsorship Terms, or if you give us a withdrawal instruction under rule 7.1.10(c) of the ASX Settlement Rules. While one of these events will bring the Sponsorship Terms to an end, the rights and obligations which have occurred before that time are not affected.

j. Clause 10 - ASX Settlement Rules

If there is an inconsistency between a part of the Sponsorship Terms and the ASX Settlement Rules, the ASX Settlement Rules will prevail to the extent of that inconsistency.

You have the obligation under clause 10 not to do anything to prevent or hinder us from complying with our obligations under the ASX Settlement Rules.

k. Clauses 11 to 15 - Miscellaneous

Clause 11 clearly sets out the procedure for formal communications between you and us. Importantly, if you give instructions to the Intermediary, we are not obliged to act in accordance with those instructions until they are actually passed on to us.

Clauses 12 and 13 set out the procedure we will follow if we want to waive or vary a provision of the Sponsorship Terms. Note that we usually need your written consent if we want to vary a provision.

Clauses 14 and 15 state that you are entitled to receive a copy of the Sponsorship Terms executed by you and us, and that you instruct us not to send you a hard copy of the Sponsorship Terms executed by us. However, if you ask us at any time, we will send to you a hard copy executed by us. You can request a copy of the executed Sponsorship Terms by contacting your Adviser.

l. Clause 16 - Meaning of words

At the end of the provisions section of the Sponsorship Terms is a dictionary which explains the meaning of key words which appear in the Sponsorship Terms. If you have any questions about the Sponsorship Terms, please contact the Compliance Manager at Morrison Securities Pty Ltd, Level 7, 7-15 Macquarie Place Sydney NSW 2000 Phone: 1300 363 766

 - (b) if the Client dies or becomes bankrupt, a holder record lock will be applied to all the Client's holdings sponsored under these Sponsorship Terms in accordance with rules 8.15.8 to 8.15.11 of the ASX Settlement Rules (unless the Client's legally appointed representative or trustee elects to remove those holdings from the CHESS subregister);
 - (c) if the Client dies, these Sponsorship Terms are deemed to remain in operation in respect of the legally appointed representative authorised to administer the Client's estate for a period of up to three calendar months after the removal of the holder record lock pursuant to rule 8.16.3 of the ASX Settlement Rules (unless the Client's legally appointed representative elects to remove the holdings sponsored under these Sponsorship Terms from the CHESS subregister); and
 - (d) if Morrison Securities is not a Market Participant of an Approved Market Operator, neither the Approved Market Operator, nor a Related Party of the Approved Market Operator, has any responsibility for regulating the relationship between the Client and Morrison Securities,

- 2.2 If the Client is a joint holder, the Client also acknowledges that:
- (a) if one of the joint holders dies, all holdings under the joint holder record must be transferred into new holdings under a new holder record in the name of the surviving holder(s) (these Sponsorship Terms remains valid for the new holdings under the new holder record); and
 - (b) if one of the joint holders becomes bankrupt, Morrison Securities will:
 - (i) establish a new holder record in the name of the joint holder that is bankrupt, transfer that person's interest into new holdings under the new holder record and request that ASX Settlement apply a holder record lock to all holdings under that holder record (unless the legally appointed representative of the bankrupt holder elects to remove the holdings from the CHESS subregister); and
 - (ii) establish a new holder record in the names of the other joint holders and transfer their interest into new holdings under the new holder record.
- 2.3 The Client acknowledges that if a transfer is taken to be effected by the Client under Section 9 of the ASX Settlement Rules and the Source Holding for the transfer is a Participant Sponsored Holding under these Sponsorship Terms, then:
- (a) the Client may not assert or claim against ASX Settlement or the relevant Issuer that the transfer was not effected by Morrison Securities or that Morrison Securities was not authorised by the Client to effect the transfer; and
 - (b) unless the transfer was taken to have been effected by a Market Participant of an Approved Market Operator or a Clearing Participant of ASX Clear, the Client has no claim arising out of the transfer against the compensation arrangement applicable to the Approved Market Operator or the Clearing Participant of ASX Clear under the Corporations Act and Corporations Regulations.
- 3. SECURITY, OTHER INTERESTS AND SUBPOSITIONS**
- 3.1 If the Client instructs Morrison Securities that financial products are to be lodged with ASX Clear as cover for written positions in the market for exchange traded options operated by ASX, the Client:
- (a) authorises Morrison Securities to reserve the financial products in a subposition, so that the financial products come under the control of ASX Clear and are subject to the security interest granted in favour of ASX Clear to secure the performance by the relevant Clearing Participant of its obligations to ASX Clear under and in accordance with ASX Clear Rules 14.6.7;
 - (b) authorises any subsequent dealing (including, without limitation, any transfer) of the reserved financial products in accordance with the ASX Settlement Rules and ASX Clear Rules;
 - (c) acknowledges that the financial products will remain subject to that security interest for so long as those financial products remained reserved in the subposition in accordance with ASX Clear Rules 14.6.7; and
 - (d) authorises Morrison Securities to take whatever action is required by ASX Clear or the ASX Settlement Rules to give effect to that cover;
 - (e) warrants that the financial product is not and may not be subject to any other security interest, other than where the parties to the security interest agree between themselves in writing that ASX Clear's security interest in respect of the financial product has priority over that security interest, and the parties hold the benefit of such agreement on trust for the benefit of ASX Clear, unless ASX Clear otherwise agrees in writing, or is otherwise a security interest as permitted under the ASX Clear Operating Rules or the ASX Settlement Rules.
- 3.2 If Client instructs Morrison Securities that a charge or other interest in financial products has been or is to be given to a person, then the Client authorises Morrison Securities to take whatever action is reasonably required by that person in accordance with the ASX Settlement Rules to give effect to or record that interest.
- 3.3 Morrison Securities may take steps to create a subposition over the Client's holding in the circumstances contemplated by clauses 3.1 or 3.2. Morrison Securities may also create a subposition if the Client consents. If Morrison Securities does this, the Client's ability to transfer, convert or otherwise deal with the financial products will be restricted in accordance with the ASX Settlement Rules.

4. INFORMATION

- 4.1 The Client must promptly give Morrison Securities any information or documents that Morrison Securities asks for to enable Morrison Securities to:
- (a) perform its obligations or to act as the Client's "controlling participant" or agent under these Sponsorship Terms; or
 - (b) comply with the requirements of ASX Settlement or the ASX Settlement Rules.
- 4.2 The Client must, in respect of each holder record (which exists or is to be created) for the Client, ensure that Morrison Securities is advised of the registration details (including any applicable residency indicator).
- 4.3 The Client must ensure that the information referred to in clause 4.2 above is provided to Morrison Securities:
- (a) as soon as possible after the Client places an order with a trading participant (including an order relating to FOR financial products) but in any event, not later than 2 business days prior to the scheduled settlement date of the relevant market transaction; and
 - (b) if the Client's registration details have changed, as soon as possible after that time.
- 4.4 If the Client does not ensure that Morrison Securities is advised of a residency indicator but Morrison Securities has been provided with a street address, then Morrison Securities will be taken to have been advised that, if the relevant street is:
- (a) a street located in Australia, a residency indicator of "D" (for domestic) applies with respect to that holder record; or
 - (b) a street located outside Australia, a residency indicator of "F" (for foreign) applies with respect to that holder record.
- 4.5 If Morrison Securities suffers any claim, liability, direct or consequential loss (including to ASX Settlement or an issuer) or incur any cost, charge or expense of any nature as a result of the Client providing (or procuring the provision) or being taken to provide inaccurate registration details, or failing to provide (or procure the provision of) accurate registration details, the Client must on demand fully indemnify Morrison Securities and keep Morrison Securities fully indemnified in respect of such claim, liability, loss, cost, charge or expense:
- (a) as soon as possible after the Client places an order with a trading participant (including an order relating to FOR financial products) but in any event, not later than 2 business days prior to the scheduled settlement date of the relevant market transaction; and
 - (b) if the Client's registration details have changed, as soon as possible after that time.
- 4.6 Information or documents the Client gives to Morrison Securities may be disclosed:
- (a) to any person for these purposes;
 - (b) if required by any regulatory authority (including ASX Settlement) or if allowed or required by law; or
 - (c) to Morrison Securities officers, employees, advisers and agents; or
 - (d) with the Client's consent; or
 - (e) to enable Morrison Securities to enforce its rights.
- 5. FEES AND INDEMNITIES**
- 5.1 The Client must pay Morrison Securities fees in connection with these sponsorship arrangements as advised by Morrison Securities from time to time.
- 5.2 If the Client does not pay Morrison Securities an amount when it is due, Morrison Securities can charge interest on the overdue amount. Morrison Securities does this using the method and interest rate Morrison Securities determines from time to time.
- 5.3 The Client indemnifies Morrison Securities against, and the Client must therefore pay Morrison Securities on demand for liability, loss or costs (including consequential or economic loss) Morrison Securities suffers or incurs:
- (a) in connection with Morrison Securities performing its obligations under these Sponsorship Terms; or
 - (b) in connection with Morrison Securities acting as the Client's "controlling participant" or agent for the purposes of CHESS; or
 - (c) if the Client does something that the Client agrees not to do, or don't do something that the Client agrees to do, under these Sponsorship Terms.
- 5.4 The Client must pay to Morrison Securities these amounts when Morrison Securities asks. Morrison Securities may also debit any of these amounts to any account the Client has with Morrison Securities even if Morrison Securities does not expressly ask the Client to pay Morrison Securities.
- 5.5 The indemnity in clause 5.3 is a continuing obligation, independent of the Client's other obligations to Morrison

Securities. It continues even after these Sponsorship Terms are terminated. It is not necessary for Morrison Securities to incur expense or make payment before enforcing a right of indemnity conferred by these Sponsorship Terms.

6. SUSPENSION FROM CHESS

6.1 If Morrison Securities is suspended from CHESS participation, (subject to the assertion of an interest in financial products controlled by Morrison Securities, by the liquidator, receiver, administrator or trustee of Morrison Securities) the Client has the right, within 20 business days of ASX Settlement giving notice of the suspension, to give a notice to ASX Settlement requesting that the Client's holdings sponsored under these Sponsorship Terms be removed either:

- (a) from the CHESS subregister; or
- (b) from Morrison Securities control to the control of another Sponsoring Participant with whom the Client has entered into a valid sponsorship agreement pursuant to rule 12.19.10 of the ASX Settlement Rules.

6.2 If the Client does not give ASX Settlement such a notice, ASX Settlement may effect a change of controlling participant under rule 12.19.11 of the ASX Settlement Rules, in which case the Client will be deemed to have entered into a new sponsorship agreement with the substitute controlling participant on the same terms as these Sponsorship Terms.

6.3 Where the Client is deemed to have entered into a new sponsorship agreement in accordance with this clause, the controlling participant must enter into a sponsorship agreement with the Client within 10 Business Days of the change of controlling participant.

7. COMPLAINT PROCEDURES

7.1 Except as referred to in clause 7.2, no external compensation arrangements apply to the Client in relation to this sponsorship agreement.

7.2 If Morrison Securities breaches a provision of these Sponsorship Terms and the Client makes a claim for compensation pursuant to that breach, Morrison Securities ability to satisfy that claim will depend upon Morrison Securities financial circumstances.

7.3 If a breach by Morrison Securities of a provision of this falls within the circumstances specified under Part 7.5, Division 4 of the Corporations Regulations, the Client may make a claim on the National Guarantee Fund for compensation.

7.4 If Morrison Securities breach these Sponsorship Terms, the Client may refer that breach to any regulatory authority, including ASX Settlement.

8. CHANGE OF CONTROLLING PARTICIPANT

8.1 If the Client receives a Participant Change Notice from Morrison Securities of the Participant Sponsored Holding and the Participant Change Notice was received at least 20 Business Days prior to the date proposed in the Participant Change Notice for the change of controlling participant, the Client is under no obligation to agree to the change of controlling participant, and may choose to do any of the things set out in clauses 8.2 or 8.3.

8.2 The Client may choose to terminate these Sponsorship Terms by giving withdrawal instructions under the ASX Settlement Rules to Morrison Securities indicating whether the Client wants to:

- (a) transfer the Client's Participant Sponsored Holding to another controlling participant; or
- (b) transfer the Client's Participant Sponsored Holding to one or more Issuer Sponsored Holdings.

8.3 If the Client do not take any action to terminate the agreement in accordance with clause 8.3 above, and do not give any other instructions to Morrison Securities which would indicate that the Client does not agree to the change of controlling participant then, subject to clause 8.8, on the Effective Date these Sponsorship Terms will have been taken to have been novated to the new controlling participant and will be binding on all parties as if, on the Effective Date:

- (a) the new controlling participant is a party to these Sponsorship Terms in substitution for the existing controlling participant; and
- (b) the existing controlling participant is released by the Client from any obligations arising on or after the Effective Date.

8.4 The novation in clause 8.3 will not take effect until the Client has received a notice from the new controlling participant confirming that the new controlling participant consents to acting as the controlling participant for you. The Effective Date may as a result be later than the date set out in the Participant Change Notice.

8.5 The Client will be taken to have consented to the events referred to in clause 8.4 by the doing of any act which is

consistent with the novation of these Sponsorship Terms to the new controlling participant (for example by giving an instruction to the new controlling participant), on or after the Effective Date, and such consent will be taken to be given as of the Effective Date.

8.6 These Sponsorship Terms continues for the benefit of the existing controlling participant in respect of any rights and obligations accruing before the Effective Date and, to the extent that any law or provision of any agreement makes the novation in clause 8.3 not binding or effective on the Effective Date, then these Sponsorship Terms will continue for the benefit of the existing controlling participant until such time as the novation is effective, and the existing controlling participant will hold the benefit of these Sponsorship Terms on trust for the new controlling participant.

8.7 Nothing in clauses 8.1 to 8.6 will prevent the completion of CHESS transactions by the existing controlling participant where the obligation to complete those transactions arises before the Effective Date and these Sponsorship Terms will continue to apply to the completion of those transactions, notwithstanding the novation of these Sponsorship Terms to the new controlling participant under clauses 8.1 to 8.6.

8.8 If the new controlling participant is not accredited under the ASX Settlement Rules to facilitate the settlement of AQUA Products and the Client's holding contains AQUA Products, Morrison Securities will convert the AQUA Product holdings to Issuer Sponsored Holdings.

9. TERMINATION

9.1 Subject to the ASX Settlement Rules, these Sponsorship Terms are terminated:

- (a) if either party notifies the other in writing that it wants to terminate these Sponsorship Terms (in which case these Sponsorship Terms are terminated from the time the notice is received unless a later time is specified in this notice);
- (b) if Morrison Securities becomes insolvent;
- (c) if Morrison Securities status as a Participant of CHESS is terminated or suspended; or
- (d) upon the giving of a withdrawal instruction by the Client to Morrison Securities in accordance with rule 7.1.10(c) of the ASX Settlement Rules.

9.2 The termination of these Sponsorship Terms does not affect any rights or obligations that have accrued before that time.

10. ASX SETTLEMENT RULES

10.1 These Sponsorship Terms are subject to the ASX Settlement Rules. The Client must not do anything that would prevent or hinder Morrison Securities from complying with its obligations under the ASX Settlement Rules.

11.3 Where the Client is a joint holder, Morrison Securities may treat a notice or other communication (including instructions) signed or received from one of the joint holder's as binding on all of them.

12. COMMENCEMENT OF PROVISIONS, WAIVER AND VARIATION

12.1 Morrison Securities can vary these Sponsorship Terms by giving the Client written notice of the variation. Morrison Securities will give you:

- (a) at least 8 business days notice of the variation of the variation is, in Morrison Securities reasonable opinion, to remove any inconsistency between these Sponsorship Terms and the ASX Settlement Rules; and
- (b) at least 20 business days notice in other cases.

- 12.2 Subject to clause 12.1, a provision of these Sponsorship Terms, or a right created under it, may not be waived or varied except in writing signed by the party or parties to be bound.
- 12.3 Where this agreement contains provisions which come into effect by operation of the ASX Settlement Rules on a particular date (**provision effective date**) and the provision effective date is after the date of the agreement, those provisions only have effect from the provision effective date. 2. What products does this PDS cover?

This is a Product Disclosure Statement for exchange traded options which are able to be traded on the financial market operated by ASX Limited ABN 98 008 624 691 (ASX) and which are settled and cleared by ASX Clear Pty Limited ABN 48 001 314 503 (ASX Clear). It deals with exchange traded equity options and index options (each exchange traded options) and LEPOs.

Exchange traded equity options are options over quoted shares (or other securities) of a range of different companies listed on ASX.

Exchange traded index options are options over an index such as the S&P™/ASX 200™ Index.

A list of companies and indices over which exchange traded options are traded can be found on the ASX website

[http://www.asx.com.au/documents/products/asx_eto_market_making_scheme.pdf or <http://www.asx.com.au/products/equity-options.htm>].

LEPOs are call options with an exercise price of one cent. LEPOs are leveraged instruments and potential profits and losses can be greater than the money initially outlaid. LEPOs will move in price approximately the same as the underlying share.

3. Introduction

3.1 Exchange Traded Options (ETOs)

ETOs are a versatile financial product which can allow investors to:

- hedge against fluctuations in their underlying share portfolio;
- increase the income earned from their portfolio; and
- profit from speculation.

The flexibility of ETOs stems from the ability to both buy and short sell an option contract and undertake multiple positions targeting specific movements in the overall market and individual equities. The use of ETOs within an investor's overall investment strategy can provide flexibility to take advantage of rising, falling and sideways markets. However, both the purchase and sale of ETOs involves risks which are discussed at length later in the section titled "Significant risks explained".

Specific concepts, which should be practically understood before engaging in an options strategy, are:

- the effect time has on any one position/strategy;
- how volatility changes, both up and down, may change your pay-off diagram or loss for a position;
- how to calculate margins and worst-case scenarios for any position;
- the likelihood of early exercise and the most probable timing of such an event;
- the effect of dividends and capital reconstructions on an options position; and
- liquidity of an options series, the role of market makers, and the effect this may have on your ability to exit a position.

When buying an ETO the initial outlay of capital may be small relative to the total contract value so that transactions are 'leveraged'. This means that both profits and losses can be magnified. Transactions should only be entered into by investors

who understand the nature and extent of their rights, obligations and risks associated with trading ETOs.

When selling an ETO the initial income may seem attractive, but the downside may be unlimited. Risk minimisation strategies should be employed to mitigate losses when a position does not move in a favourable manner.

While this PDS provides product information (including information about the risks, characteristics and benefits of ETOs), investors should inform themselves and if necessary obtain advice about the specific risks, characteristics and benefits of the ETO they intend to trade and relevant ASX rules.

3.2 Educational booklets

ASX has prepared a number of educational booklets relating to ETOs which are available to you via their website, <http://www.asx.com.au/education/download-brochures.htm>.

In addition to reading this PDS, investors are advised that this PDS references certain of the ASX booklets. The ASX booklets that relate to options are available free of charge on the ASX website (<http://www.asx.com.au/education/download-brochures.htm>). These booklets provide useful information regarding options traded on ASX, including option features, the advantages of options, the risks associated with options, option adjustments, option pricing, margins, taxation and option contract specifications.

The ASX booklet entitled **Understanding Options Trading** is a booklet which we must give you in accordance with the ASX operating rules when you sign our client agreement to trade ETOs. This booklet is also available on line at <http://www.asx.com.au/documents/resources/UnderstandingOptions.pdf>.

If you cannot access the ASX booklets via the ASX website, please contact us immediately and we will arrange to forward copies of the booklets to you at no charge.

Morrison Securities suggests that you read and understand all of the information referred to in this section before you trade in ETOs.

Before trading in ETOs through Morrison Securities you are required to read this booklet. If you place an order to buy or sell an ETO through Morrison Securities, you will be taken to have confirmed to Morrison Securities that you have read and understood this ASX booklet and this PDS.

If you have any questions on any aspect of the booklets, you should consult your financial adviser before making any investment decisions.

3.3 LEPOs

LEPOs (over equities) are essentially equity options with an exercise price of one cent per underlying share. LEPOs are European style options; in other words, they can only be exercised on the expiry date. The buyer (or taker) of a LEPO has the right to buy an agreed number of shares (typically 100 shares per LEPO contract) at a specified future date, in return for the payment of the exercise price (one cent per share). The seller (or writer) of a LEPO undertakes to sell the underlying shares at expiry in return for the exercise price. The seller (writer) of a call option is only required to deliver the underlying shares if the buyer (taker) exercises the option. When you enter into a LEPO, you do not pay (or receive) the full amount of the premium upfront. Instead, you pay or receive margins during the life of the LEPO and pay or receive the balance of the premium if and when you exercise the LEPO.

LEPOs are different from standard ETOs in a number of ways:

- LEPOs are only available as call options
- LEPOs are European style options, meaning they are only exercisable on expiry day, while standard equity options are generally American style options exercisable at any time before expiry. Refer to section 4.10 of this PDS for information about automatic exercise
- LEPOs have a very low exercise price and a much higher premium – close to the market value of the underlying share of the LEPO
- LEPOs do not require an amount equal to the full premium to be paid on purchase. Instead the buyer (taker) effectively pays a margin, which represents a small percentage of the value of the underlying shares. In standard equity options, the buyer (taker) pays the premium upfront and the seller (writer) receives the premium upfront
- Both the buyer (taker) and seller (writer) of a LEPO are subject to ongoing margining.

In summary, the premium for a LEPO will generally track the price of the underlying shares, so an investor's profit or loss will generally track movements in the underlying share on a one-for-one basis. Buying a LEPO is similar to a forward purchase of shares, while selling a LEPO is similar to a forward sale of shares. Because of their low exercise price, LEPOs trade for large premiums. The high premium exposure carries a risk similar to that of owning the shares outright, or for sellers (writers), short selling shares.

The ASX booklet entitled LEPOs: Low Exercise Price Options

Explanatory Booklet is available on line at <http://www.asx.com.au/documents/resources/UnderstandingLEPOs.pdf> . If you cannot access the ASX booklet via the ASX website, please contact us immediately and we will arrange to forward to you by email a copy of the booklet to you at no charge. Before trading in LEPOs through Morrison Securities you are required to read this booklet. If you place an order to buy or sell a LEPO through Morrison Securities, you will be taken to have confirmed to Morrison Securities that you have read and understood this ASX booklet and this PDS.

3.5 How do your orders get executed and settled?

You may only provide instructions to us in accordance with your client agreement with us. That agreement might require that, if you wish to provide us with instructions, you must do so only through an intermediary with whom we have entered an arrangement under which that person may place orders with us on behalf of clients in relation to ASX transactions (**Licensee**). That agreement might permit you to provide instructions to us directly (such as through a DMA Service) or through the relevant Licensee.

When placing the order Morrison Securities will need:

- (a) your account number;
- (b) details of the person giving the order;
- (c) details of the stock to be dealt in;
- (d) the series, specifying both the expiry day and the strike price (and if long dated the year); and

You will owe your obligations in respect of any ETOs or LEPOs executed for you directly to Morrison Securities, despite the fact that a Licensee may have arranged for the relevant trade to be executed on your behalf. You will not be taken to have satisfied your obligations to Morrison Securities by making any payment or delivering documents to the Intermediary.

4. What are exchange traded option & LEPO contracts

American or European style options

ETOs may be **American** or **European style** exercise. Most ASX options are **American style** which means they are tradeable and can be exercised at any time prior to the expiry day. **European style options**, which include index options, are also tradeable but can only be exercised on the expiry day and not before. LEPOs are European style only, which means they can only be exercised on the expiry date and not before. Further detail can be found at

www.asx.com.au/documents/resources/UnderstandingLEPOs.pdf .

Taker and writers of ETOs and LEPOs

An ETO or a LEPO is a contract between two parties which gives the buyer (the taker) the right, but not the obligation, to buy or sell the securities underlying the option at a specified price (exercise price) on, or before a predetermined date. To acquire this right, the taker pays a premium to the writer (the seller) of the contract. When considering options over an index, the same concepts generally apply.

Payment and receipt of the premium

The taker will always pay the writer a price (the premium) to enter the ETO or LEPO. The writer receives and keeps the premium but has the obligation to buy from or sell to the taker the underlying securities at the exercise price if the taker exercises the option. The premium is not a standardised feature of the ETO contract or LEPO and is established between the taker and writer at the time of the trade.

ETO or LEPO sellers are referred to as 'writers' because they underwrite (or willingly accept) the exercise risk of the contract. Similarly, buyers are referred to as 'takers' of an ETO or LEPO as they take up the right to buy or sell a parcel of securities. Every ETO or LEPO contract has both a taker and a writer.

Call options and put options - long and short positions

There are two types of ETOs, namely **call options** and **put options**. All option positions consist of one or more of a bought call, a sold call, a bought put, or a sold put. A long (or bought) option position is created by the purchase of a call or put. A short (or sold) position is created by the sale of a call or put. By combining two or more of these basic positions, an investor can create a trading strategy that meets a range of investment objectives, including the protection of

an existing portfolio of securities. For more information on possible trading strategies we refer you to the ASX Booklet entitled Options Strategies' available on the ASX website at

<http://www.asx.com.au/documents/resources/UnderstandingStrategies.pdf> .

Call options give the taker the right, but not the obligation, to buy a standard quantity of underlying securities at a predetermined price on or before a predetermined date. If the taker exercises their right to buy, the seller (writer) is required to sell a standard quantity of securities at the predetermined exercise price.

Put options give the taker the right, but not the obligation to sell a standard quantity of underlying securities at a predetermined price on or before a predetermined date. If the taker exercises their right to buy, the seller (writer) is required to buy a standard quantity of securities at the predetermined exercise price.

The premium is the price of the option agreed to by the buyer and seller through the market.

The taker will always pay the writer a price (called the premium) to enter into the option contract. The writer receives and keeps the premium but has the obligation to buy from or deliver to the taker the underlying securities at the exercise price if the taker exercises the option.

4.1 Deliverable or cash settled

ETOs and LEPOs are either deliverable or cash settled.

Most exchange traded equity options and LEPOs are deliverable, that is with physical delivery of the underlying security, while index options are cash settled.

Cash settlement occurs in accordance with the rules of ASX Clear against the Opening Index Price Calculation (**OPIC**) as calculated on the expiry date.

4.2 Standardised Contracts

ETOs and LEPOs are created by the exchange on which the underlying equity or index is listed. Morrison Securities trades ETOs in relation to entities and indices listed on ASX. The ASX website provides a list of entities and indices over which ETOs are traded; these can be found at

http://www.asx.com.au/documents/products/asx_eto_market_making_scheme.pdf .

ASX determines the key contract specifications for each series of ETOs or LEPOs listed, including:

- (a) the underlying security or underlying index;
- (b) the contract size, that is, the number of units of the underlying security. The contract size is usually 100 securities per contract for equity ETOs and LEPOs
- (c) the exercise price (or strike price), which is the specified price at which the taker (buyer) of an equity option can buy or sell the underlying securities. ASX sets the range of exercise prices at specific intervals according to the value of the underlying securities. It is important to note that the exercise price of an equity option may change during the life of an option if the underlying security is subject to a bonus or rights issue or other form of capital reconstruction or in some cases a special dividend or distribution. The number of underlying securities may also be subject to an adjustment; and
- (d) the expiry date.

ASX may in accordance with its operating rules make an adjustment to any of the above specifications if the listed entity over which the option relates makes a pro-rata change to its ordinary capital structure (e.g. bonus issues or special dividends or distributions are to be paid). If ASX does make an adjustment it will endeavour to preserve the open positions of takers and writers at the time of the adjustment as best as possible. ASX has issued an Explanatory Guide for Option Adjustments which can be found at http://www.asx.com.au/documents/resources/explanatory_note_option_adjustments.pdf which provides further information regarding ASX option adjustments.

Full details of all ETOs and LEPOs listed on ASX and expiry date information can be found on the ASX website at <http://www.asx.com.au/products/equity-options/about-options.htm> . A list of current option codes and delayed price information is available on the ASX website at <http://www.asx.com.au/products/equity-options/about-options.htm>

Details of contract specifications for ETOs and LEPOs are published by ASX on their website at <http://www.asx.com.au/products/equity-options/options-contract-specifications.htm> . The contract specifications detail the key standardized features of ETOs and index options traded on ASX.

4.3 Premium

The premium (price of the option) is not set by ASX but is negotiated between the buyer and seller of the ETO or LEPO through the market.

The premium for an equity option is quoted on a cents per security basis so the dollar value payment is calculated by multiplying the premium amount by the correct multiplier for that particular series

(i.e. the number of underlying securities in the contract which is usually 100). For example, if you buy 10 call option contracts with a premium quoted at 50c per security, the total premium is \$500.00 (being \$0.50 x 100 x 10). The premium for an index option is calculated by multiplying the premium by the index multiplier. For example, a premium of 50 points, with an index multiplier of \$10, represents a total premium cost of \$500 per contract.

Option premium will fluctuate during the option's life depending on a range of factors including the exercise price, the price of the underlying securities or the level of the index, the volatility of the underlying securities or the underlying index, the time remaining to expiry date, interest rates, dividends, distributions and general risks applicable to markets.

Most option pricing involves the use of a mathematical formula, which includes calculating the intrinsic and time value of the particular option. You should refer to the section entitled 'Option pricing fundamentals' in the ASX Booklet Understanding Option Trading for more information regarding the fundamentals of pricing options. ASX also provides a pricing calculator on the ASX website, www.asx.com.au.

4.4 No Dividends or Entitlements

ETOs and LEPOs do not entitle investors to dividends or other distributions or entitlements paid or provided by the issuer of the underlying securities, unless the investor exercises the option to become the holder of the underlying securities at or before the relevant date for dividend, distribution or entitlement purposes.

4.5 Opening/Buying/Taking an ETO or LEPO position

The establishment of a contract is referred to as opening a position. Once the taker of an ETO or LEPO has an open position, they have three alternatives:

- (a) the taker can exercise the ETO or LEPO;
- (b) the taker can hold the ETO or LEPO to expiry and allow it to lapse; or
- (c) the taker can close out their position by selling the same ETO or LEPO. Note: at this point the open position will be closed out.

4.6 Opening/selling/Writing an ETO or LEPO

Once the seller or writer of an ETO or LEPO has an open position, they have two alternatives:

- (a) let the ETO or LEPO go to expiry and risk being exercised against (if it is not exercised against, it will expire without any further obligation or liability on the writer); or
- (b) close out the ETO or LEPO by buying the ETO or LEPO back before it has been exercised.

4.7 Closing out of option contracts

An option position may be 'closed out' by placing an order equal and opposite in effect to the open position to be closed. If you have a bought/long position you would sell it, if you have a sold/short position you would buy it back. This effectively cancels out the open position. An investor would close out an ETO or LEPO contract:

- (a) when there is a risk of unwanted early exercise
- (b) to take a profit; or
- (c) to limit a loss.

It is important that you advise us (or, if you trade through an Intermediary, advise the Intermediary), when placing your order, if you are seeking to close out an existing open position. Closing out can be achieved without reference to the original party to the trade because of the process of novation. ASX Clear is able to substitute a new buyer as the contract party when an existing taker sells to close their position. The process of novation is discussed in more detail below in the section 8.1 below entitled 'Trading and clearing ETOs and LEPOs'.

Note: Morrison Securities will set all accounts to automatic exercise. This is discussed further in section 4.10 below.

4.8 Expiry

Options have a limited life span and expire on standard expiry days set by ASX Clear.

The expiry day is the day on which all unexercised options in a particular series expire and is the last day of trading for that particular series. For options over shares this is usually the Thursday before the last Friday in the month. For index options, expiry is usually the third Thursday of the contract month. ASX also list weekly index options which offer expiry dates that occur each week of each month. However, ASX Clear has the right to change this date should the need arise.

As options expire new expiry dates are added further out. All option classes (stock or index) with a monthly expiry have expiries based on the financial quarters (March, June, September and December). For example, a June expiry means that the option expires on the expiry day in June. If Thursday or Friday are not business days, the expiry day is brought forward to the next business day.

A full list of all options series available for trading is available on the ASX website, <http://www.asx.com.au/products/equity-options/about->

[options.htm](#) in the csv file 'Listed ETO code list' in the 'Related information' section. This list is updated daily.

You can find a useful expiry calendar and option listing guidelines on the ASX website at <http://www.asx.com.au/products/equity-options/about-options.htm>.

4.9 Exercise

ETO or LEPO takers make the decision to exercise the ETO option or LEPO contract. This means that a writer of an American equity option may be exercised against at any time prior to expiry.

ASX Clear will 'randomly' allocate a writer for every exercised position. This means that if the taker wants to exercise the options and either buy or sell (depending on whether it is a call or a put) at the predetermined price, then ASX randomly allocates a writer of that option and allocates the exercise against them. The writer must then accept the securities at a predetermined price for a call or sell the securities at the predetermined price for a put.

The taker of an ETO or LEPO will generally only exercise for a profit and therefore the exercise may result in a loss to the writer of the ETO or LEPO, depending on their initial costs.

Once a writer has been allocated, the writer has lost the opportunity to close out their position and must affect the delivery or cash settlement obligations for the particular equity option contract.

4.10 Automatic exercise by Morrison Securities

Morrison Securities will automatically exercise any open ETO or LEPO contract taken or bought by you if your contract is in the money at expiration of the contract.

For call options, the option will be in the money where the exercise price is below the price of the underlying securities at expiration of the call option.

For put options, the option will be in the money where the exercise price is higher than the price of the underlying securities at expiration of the put option.

All unexercised option contracts will expire on the expiry date.

4.11 Settlement

Payment for, and the delivery of underlying securities, on exercise of an open ETO contract occurs via ASX's Clearing House Electronic Sub register System (CHES) on T+2 from date of exercise.

Morrison Securities is obliged to make payment to ASX within this timeframe (i.e. within two business days).

For cash settled index options, a cash settlement amount calculated having regard to the opening price index calculation on expiry day is paid to exercising takers on the day following the expiry date. The level used for settling index options is determined by a special formula.

If you intend investing in the index options, you should take the time to understand these arrangements.

For more information on settlement of index options see the ASX Booklet Understanding Options Trading section on 'Trading index options'.

Note: if you exercise a LEPO you are required to pay the full purchase price the following day.

Morrison Securities requires that you settle at T+1 (that is within 24 hours from the time the trade occurred) for all cash positions which arise from premiums, interest, and other cash financial transactions. This requirement is reflected in the terms of our client agreement with you. You are required to pay the margin amounts we call from you within 24 hours of being advised of the margin amount by us. Please see the discussion on margins below.

4.12 Morrison Securities open positions limits and right to close out open positions

Under the terms of your agreement with Morrison Securities, Morrison Securities has the right to impose from time to time limits (Morrison Securities Derivatives Limits) in respect of the open ETOs and LEPOs which have been or may be sold on behalf of you or any other particular clients or clients generally. These limits may relate to ETOs or LEPOs of one or more specified series, or to ETOs or LEPOs generally.

Also under the terms of your agreement with Morrison Securities, Morrison Securities has the right in its discretion to close out (or request you to instruct the Licensee or Morrison Securities to close out) one or more open ETOs or LEPOs held in your Client Account at any time in order to ensure that the open ETOs or LEPOs sold on your behalf or on behalf of clients generally do not exceed any Morrison Securities Derivatives Limit. Morrison Securities is not liable to compensate you for any loss which may result from (or any reduction in the potential profit which you might have otherwise made but for) the closing out of an ETO or LEPO by Morrison Securities pursuant to this right.

Morrison Securities may exercise this right whether or not you have complied with its obligations to provide Morrison Securities Cover in respect of the Client's open ETOs or LEPOs as the case may be. You must pay the costs of closing out open ETOs or LEPOs if Morrison Securities exercises this right.

5. Significant benefits of exchange traded options and LEPOs

ETOs and LEPOs confer a number of benefits which include:

- (a) Risk management where investors can **hedge** (protect) their portfolio from a drop in value. Put options allow investors holding securities to hedge against a fall in price;
- (b) Shareholders can **earn income** by writing call options over securities they already hold. As a writer of options, the investor will receive the premium amount up front. The risk is that the writer may be exercised against and be required to deliver their securities to the taker at the exercise price;
- (c) By taking a call option, the purchase price for the underlying security is locked in. This gives the call option holder **time to decide** whether or not to exercise the option and buy the securities. The holder has until the expiry date to make their decision. Likewise the taker of a put option has time to decide whether or not to sell the securities;
- (d) ETOs and LEPOs benefit from standardisation and registration with a clearing and settlement facility which reduces **counterparty default risk**. This process provides the benefit that the client's position can be closed out without reference to the original counterparty and the client's risk to that counterparty is transferred to ASX Clear;
- (e) **Speculation** where the flexibility of entering and exiting the market prior to expiry permits an investor to take a view on market movements and trade accordingly. In addition the variety of ETO or LEPO combinations allows investors to develop strategies regardless of the direction of the market;
- (f) ETOs and LEPOs do not require a rising market to make money, rather investors can **profit from both rising, falling** and sideways markets depending on the strategy they have employed. Strategies may be complex and strategies will have different levels of risk associated with each strategy;
- (g) The initial outlay for an ETO or LEPO contract is not as much as investing directly in the underlying securities. Trading in ETOs or LEPOs can allow investors to benefit from a change in the price of the security without having to pay the full price of the security. An investor can therefore purchase an ETO or LEPO (representing a larger number of underlying securities) for less outlay and still benefit from a price move in the underlying securities. The ability to make a higher return for a smaller initial outlay is called leverage. Investors however, need to understand that **leverage** can also produce increased risks (see below);
- (h) Given the lower initial outlay attached to ETOs or LEPOs, investors can **diversify their portfolios and gain a broad market exposure** over a range of securities or the index itself.

6. Significant risks explained

The risk of loss in trading in ETOs and LEPOs can be substantial.

It is important that you carefully consider whether trading ETOs or LEPOs is appropriate for you in light of your investment objectives and financial circumstances.

You should only trade ETOs and LEPOs if you understand the nature of the products and the extent of your exposures to risks. The risks attached to investing in ETOs and LEPOs will vary in degree depending on the option traded (see the risks outlined below).

The PDS does not cover every aspect of risk associated with ETOs and LEPOs. For further information concerning risks associated with ETO trading you are referred to the ASX booklet **Understanding Options Trading** and in particular the section entitled 'Risks of option trading' (the booklet can be found on the ASX website at www.asx.com.au/documents/resources/UnderstandingOptions.pdf). ETOs and LEPOs are not suitable for some retail investors. For example investors who have a low risk tolerance should not enter into ETO or LEPO trades which have the potential for unlimited losses. In deciding whether or not you should trade ETO or LEPO contracts, you should be aware of the following matters relating to risk:

- (a) The **high level of leverage** that is obtainable in trading ETOs and LEPOs (due to the low level of initial capital outlay) can work against an investor. Depending on the market movement, the use of leverage may lead to large losses;
- (b) ETOs and LEPOs have a **limited life span** as their value erodes as the option reaches its expiry date. It is therefore important to ensure that the ETO or LEPO selected meets the investor's investment objectives;
- (c) ETOs and LEPOs are subject to movements in the **underlying market**. ETOs and LEPOs may fall in price or become worthless at or before expiry;
- (d) The **maximum loss in taking** (buying) an ETO is the amount of premium paid. If the option expires worthless, the taker will lose the total value paid for the option (the premium) plus transaction costs.

- (e) Whilst writers (sellers) of options earn premium income, they may also incur **unlimited losses** if the market moves against the option position. The premium received by the writer is a fixed amount; however, the writer may incur losses greater than that amount. For example, the writer of a call option has increased risk where the market rises and the writer does not own the underlying securities. If the option is exercised, the writer of the option is forced to buy the underlying securities at the current (higher) market price in order to deliver them to the taker at the exercise price. Similarly, where the market falls, the writer of a put option that is exercised is forced to buy the underlying securities from the taker at a price well above the current market price;
- (f) Writers of ETOs and LEPOs could sustain a total **loss of margin funds** deposited with their broker where the market moves against the option position. In addition, the writer may be obliged to pay additional margin funds (which may be substantial and potentially unlimited) to maintain the ETO or LEPO position or upon settlement of the contract. Margins are discussed below;
- (g) Under certain conditions, it could become difficult or impossible to **close out** a position. This can happen for example where there is a significant change in price over a short time period;
- (h) ASX and ASX Clear, have discretionary powers in relation to the market. They have power to **suspend the market operation**, or lift market suspension in ETOs or LEPOs while the underlying securities are in trading halt if the circumstances are appropriate, restrict exercise, terminate an ETO or LEPO position or substitute another underlying security (or securities), impose position limits or exercise limits or terminate contracts, all to ensure fair and orderly markets are maintained as far as practicable. These actions can affect an investor's ETO or LEPO positions;
- (i) The placing of **risk minimisation orders** may not always limit an investor's losses to the amounts that are expected. Market conditions may make it impossible for a broker to execute the risk minimisation orders. Strategies using combinations such as 'spreads' or 'straddles' may be as risky as taking a simple 'long' or 'short' position.
- (j) Trades affected on ASX may be subject to **dispute**. When a trade is subject to a dispute, ASX has powers, in accordance with its rules, to request that a broker amend or cancel a trade, which will in turn result in the contract with the client being amended or cancelled. Any change or amendment to the beneficial ownership of the security can have Capital Gains tax implications;
- (k) Morrison Securities has the ability to amend or **cancel the trade** as stated in our Terms of Trading and Derivatives Client Agreement. This could cause you to suffer loss or increase your loss and could have Capital Gains Tax implications. A trade executed on behalf of a client can also be amended or cancelled if requested by the client even where the trade has been confirmed to the client. In addition ASX has the power to cancel, amend or require the cancellation of amendment of transactions. This power can be exercised without your permission or Morrison Securities' agreement;
- (l) Trades affected on ASX are traded on an electronic trading platform and cleared through ASX Clear. As with all such electronic platforms and systems, they are subject to failure or **temporary disruption**. If the system fails or is interrupted, we will have difficulties in executing all or part of your order according to your instructions. An investor's ability to recover certain losses in these circumstances will be limited given the limits of liability imposed by ASX and ASX Clear;
- (m) If you fail to pay an amount due from a transaction in accordance with the ASX Operating Rules, you agree that Morrison Securities has the right to sell any or all of your securities in addition to the securities which are the subject of the defaulting contract in order to offset any debt owed to Morrison Securities.
- (n) Morrison Securities may exercise its right to close out (or request you to instruct the Licensee or Morrison Securities to close out) one or more open ETOs or LEPOs held in your Client Account at any time in order to ensure that the open ETOs or LEPOs sold on your behalf or on behalf of clients generally do not exceed any Morrison Securities Derivatives Limit. Such closing out of one or more of your open positions may result in a loss for you. Morrison Securities is not liable to compensate you for any loss which may result from (or any reduction in the potential profit which you might have otherwise made but for) the closing out of an ETO or LEPO by Morrison Securities pursuant to this right. Morrison

Securities may exercise this right whether or not you have complied with its obligations to provide Morrison Securities Cover in respect of the Client's open ETOs or LEPOs as the case may be. Morrison Securities may also require you to pay the costs of closing out open ETOs or LEPOs if Morrison Securities exercises this right.

This PDS does not cover every aspect of risk associated with options. For further information concerning risks associated with options trading you are referred to the ASX booklet **Understanding Options Trading** and in particular the section entitled 'Risks of option trading' (the booklet can be found on the ASX website at <http://www.asx.com.au/documents/resources/UnderstandingOptions.pdf>).

We recommend that you consult your financial adviser or obtain other independent advice before trading in ETOs or LEPOs.

7. Fees and other costs

The exact cost of your transaction will be disclosed on your Confirmation but will consist of the charges discussed below. There may also be certain amounts that are (or may become) payable in respect of options which are discussed below. Some fees that we charge may be tax deductible. You must confirm this with your own Tax Adviser or Accountant in relation to your specific situation.

7.1 Contract fees

ASX charge a fee of \$0.13 plus \$0.013 GST (or \$0.143 including GST) per contract. These fees apply to buying and selling; opening or closing.

7.2 Exercise fees

ASX levies \$0.05 plus \$0.005 GST (or \$0.055 including GST) for every contract that is exercised.

7.3 Index Options

In the case of index options, ASX charges \$0.45 plus \$0.045 GST (or \$0.495 including GST) per contract including GST, for both the transaction and the exercise fee.

7.4 Brokerage

If you wish to trade ETOs or LEPOs through us, you will need to become a client of an intermediary (**Licensee**) with whom Morrison Securities has entered into an arrangement under which the Licensee may place orders with Morrison Securities on behalf of clients.

We (Morrison Securities) do not charge you fees for the services that we may provide to you. Instead, the relevant Licensee may charge you fees in respect of those transactions executed by Morrison Securities on your behalf. However, the Licensee (not Morrison Securities) determines the amount and structure of any such fees.

The information concerning the fees which the Licensee may charge can be obtained directly from the relevant Licensee.

Morrison Securities will charge the relevant Licensee a fee for those transactions executed through ASX by Morrison Securities on your behalf (**Execution Fee**). In addition to the Execution Fee, Morrison Securities may also charge a range of fees to the Licensee including a fixed monthly fee, a fee per trade, a fee per service and other fees. The impact of transaction costs on profitability is often greater for options transactions than for transactions in the underlying interests because these costs are often greater in relation to option premiums than in relation to the prices of underlying interests. Transaction costs are especially significant in option strategies calling for multiple purchases and sales of options such as spreads and straddles. Investors should always discuss transaction costs with their financial advisor before engaging in options transactions.

7.5 Margins

The Clearing House (**ASX Clear**) will call amounts of money known as **'margin'** from a Clearing Firm as cover. Margins are generally a feature of all exchange traded derivative products and are designed to protect the Clearing House against default. A margin is the amount calculated by the Clearing House as necessary to cover the risk of financial loss on an ETO contract due to an adverse market movement.

The seller (writer) of an ETO will ordinarily be required to pay margin in respect of that contract or provide collateral acceptable to the Clearing House. That is because the Clearing House is exposed to the risk that the seller (writer) will not perform their obligations if and when the option is exercised.

Margin requirements for option writers are complex. Margin requirements are subject to change, and may vary from time to time, at the discretion of the Clearing House. Margin requirements can have an important effect on an option writer's risks and opportunities.

7.5.1 Margins for ETOs

ASX Clear calculates margins daily using a margin calculation engine called Standard Portfolio Analysis of Risk (**SPAN**).

The total margin for ETOs is made up of two components:

1. The premium margin, which is the market value of the particular position at the close of business each day. It represents the

- amount that would be required to close out your position;
2. The SPAN requirement contains further margin charges and margin concessions. The SPAN requirement uses the following:
 - The **Scan Risk** – the basic evaluation of risk replicating how positions will gain or lose under particular combinations of price and volatility movements. Scan risk uses price and volatility scan ranges.
 - The **Intracommodity Spread Charge** – risk levels related to particular patterns of calendar spreading.
 - **Delivery Risk** – risk related to positions in physically deliverable products as they approach or enter their delivery period.
 - The **Intercommodity Spread Credit** – reductions to risk associated with risk offsets between associated products.
 - **Short Option Minimum** – an evaluation of the irreducible minimum risk related to portfolios.

If you have a number of option positions open, the margin calculation engine will evaluate the risk associated with your entire options portfolio and calculate your total margin obligation accordingly. It is possible that some option positions may offset others, leading to a reduction in your overall obligation. Amounts of margin are determined daily by ASX Clear, following the close of trading each day. In times of high volatility an intraday margin call may be made by ASX Clear.

Morrison Securities is entitled to call (and may at any time call) for additional margin from you, compared to the amount that is obliged to be paid to ASX Clear – we do this as a risk management tool. ASX Clear margin obligations may be met by paying cash or by providing certain types of eligible collateral (e.g. securities and bank guarantees). ASX Clear generally discounts the value of such collateral deposited with it to 70% of its full value as a risk management tool. This means that if the securities used by you as collateral have a market value of \$10,000, only \$7,000 will be counted as collateral cover for your margin obligations.

You must pay margin within 24 hours of you being advised of the margin call by us. The margining process used by ASX Clear is explained in detail in the ASX booklet **Understanding Margins** which is available on the ASX website at

www.asx.com.au/documents/resources/Understanding_Margins.pdf

7.5.2 How ASX Clear calculates LEPO margins

To understand the margining process for Low Exercise Price Options (LEPOs) you should first read the LEPO Explanatory Booklet which sets out the features and benefits of LEPOs. This booklet can be downloaded from the ASX website at www.asx.com.au

Unlike ordinary exchange traded options, where only the writer is margined, with LEPOs both the taker and the writer are margined. This is because the taker of a LEPO does not pay the writer the full premium upfront. As such, the taker is margined as they have an obligation to pay the premium.

7.6 Late settlement or margin payments

Any interest levied on late settlement and margin payments is due and receivable at the time the amount is levied and certainly within 1 business day of a demand being made by Morrison Securities.

8. Other significant characteristics of exchange traded option contracts and LEPOs

8.1 Trading and clearing ETOs and LEPOs

ETOs and LEPOs are traded on ASX's trading platform and cleared through ASX Clear. Participants of ASX must comply with the market rules of ASX. Participants who clear ETO or LEPO contracts must comply with the clearing rules of ASX Clear.

ASX Clear stands between the buying and selling brokers (the **ASX participants**) and guarantees the performance to each of them. This process is known as 'novation'. Importantly ASX Clear does not have an obligation to you, the underlying client. The rules of ASX Clear govern arrangements once a deliverable exchange traded option has been exercised.

8.2 Client Trust Accounts and Collateral

In order for us to trade an ETO or LEPO contract for you, we require you to provide us with money or securities to enable us to manage the risks associated with our dealings for you in those options.

Client money and securities paid or given by you in connection with our advising or dealing in the options must be held by us on trust in accordance with the Corporations Act and the ASX rules.

Money is held on trust for you in a trust account. However, this does not apply to money paid to reimburse us for payments we have had to make to ASX Clear (generally margin calls) in respect of dealings for you. The Corporations Act provides that money held in the trust account can be used for specific purposes such as meeting margin obligations, guaranteeing, securing, transferring, adjusting or settling dealings in derivatives.

Morrison Securities may retain the interest (if any) earned on any moneys held for you in its trust account.

CHESS securities (held by you) may be lodged in your name with

ASX Clear as collateral for margin obligations relating to ETO or LEPO trades. When CHESSE securities are lodged with ASX Clear, the securities are held by ASX Clear as 'third party security'. The lodged securities cannot be used by us in relation to our dealings or for our other clients in relation to their dealings unless authorised by you as Third Party Collateral.

Securities in a client's superannuation fund cannot be used as Third Party Collateral for any other account.

8.3 National Guarantee Fund

Except in limited the circumstances National Guarantee Fund (NGF) protection does not apply to dealings in ETOs or LEPOs. The NGF provides investors trading in ETOs or LEPOs with protection in the following circumstances.

- (a) If an option is exercised, the NGF guarantees completion of the resulting trade in certain circumstances; and
- (b) If you have entrusted property to Morrison Securities in the course of dealing in options, and Morrison Securities later becomes insolvent, you may be able to claim on the NGF, in accordance with the rules governing the operation of the NGF, for any property which has not been returned to you or has not otherwise been dealt with in accordance with Morrison Securities' obligations to you. There are limits on claims to the NGF for property entrusted.

For more information on the possible protections offered by the NGF see <http://www.segc.com.au>.

9. Dispute resolution system

If you have any concerns or comments about the financial service or financial products provided to you, you should take the following steps:

- (a) Send your complaint in writing to the Compliance Manager at Morrison Securities, Level 7, 7-15 Macquarie Place Sydney NSW 2000
- (b) If you have not received a satisfactory response or 45 days have elapsed you may refer the matter to Australian Financial Complaints Authority (AFCA). Morrison Securities is a member of the AFCA. AFCA can be contacted on 1800 931 678 or GPO Box 3, Melbourne VIC 3001 or info@afca.org.au. This service is provided to you free of charge;
- (c) You may also choose to refer the matter to ASX.
- (d) Alternatively, you may refer the matter to the Australian Securities and Investments Commission (ASIC). ASIC may be contacted on their freecall Infoline on 1300 300 630 or by fax to (03) 5177 3999 or online via their website www.asic.gov.au.

If you require further information on how complaints are handled by Morrison Securities please refer to our Financial Services Guide.

10. Significant taxation implications

You should consult your own taxation adviser before making any decisions to trade in ETOs or LEPOs.

For further information on the taxation treatment of options you are referred to the article Income Tax Treatment of Exchange Traded Options at

http://www.asx.com.au/documents/products/taxation_of_exchange_traded_options_may_2011.pdf.

The taxation consequences of trading in ETOs and LEPOs are complex and will depend on your individual circumstances. It is therefore important that you ascertain whether you are a trader, a speculator or a hedger as the tax treatments for each may differ as discussed below.

Given we (Morrison Securities) are not a taxation adviser you should discuss any taxation issues with your Tax Adviser or Accountant before entering or disposing of an ETO or LEPO. You should be aware that there might be capital gains tax consequences. You should seek appropriate independent advice in this regard.

This PDS does not cover every aspect of taxation as it relates to ETOs or LEPOs. The information below acts as a summary of significant taxation considerations that should be considered by you before investing in ETOs or LEPOs. Accordingly, you are recommended to seek professional tax advice before entering into or disposing of an ETO or LEPO.

Some fees that we charge may be tax deductible. You must confirm this with your own Tax Adviser or Accountant in relation to your specific situation.

10.1 Implications for Australian Resident Investors

Revenue Account

Writer of the Option

Where a writer of an option writes an option in the ordinary course of business or the option has been written over an underlying revenue asset, the option will be treated as being on revenue account.

The premium received by the writer of the option will be assessable on a due and receivable basis. Where any premium is credited to the writer's Clearing House account the amount will still be assessable on this basis.

Any subsequent margin calls will not be deductible when they are deposited by the writer into their Clearing House account. These

margins will merely reduce any net position of the writer upon the close out, settlement or exercise of the option by the taker. Where interest is received by the writer on the margins held in their Clearing House account, this is required to be included in the writer's assessable income.

Taker of the Option

A taker will generally hold an option on revenue account when it is held or traded in the ordinary course of business, or the option is used to hedge an underlying revenue asset.

Where this is the case, any premium paid by the taker is generally regarded as being deductible on a due and payable basis. This will generally be at the time the option is entered into. Where an option on revenue account lapses, there are no further tax implications. However, where an option on revenue account is exercised, the option strike price will form part of the acquisition cost or disposal proceeds for the underlying asset in question.

Alternatively, where the option is closed-out prior to its expiration, any gain or loss on the option position will be treated as assessable or deductible as the case may be.

10.2 Capital Account

Writer of the Option

Where a writer writes an option over an underlying capital transaction, the option will be held on capital account.

Consequently, any income tax implications will be determined in accordance with the Capital Gains Tax (CGT) provisions.

The premium received by the writer of the option will give rise to an assessable capital gain on a received or a receivable basis. Where any premium is credited to the writer's Clearing House account the amount will still be assessable on this basis.

Any subsequent margin calls will merely reduce any net position of the writer upon the close-out, settlement or exercise of the option by the taker.

Where interest is received by the writer on the margins held in their Clearing House account, this is required to be included in the writer's assessable income.

Exercise of a Call Option

Where a call option is exercised, the option premium and the proceeds on the sale of the underlying asset should be treated as a single transaction. Accordingly, both the premium and the proceeds received will form part of the writer's capital proceeds for CGT purposes.

This may have practical implications for writers of options where the premium and sale proceeds are received in different financial years.

Exercise of a Put Option

Where a put option is exercised, the option premium paid and exercise price will form part of the cost base of the underlying asset for the investor. Accordingly, both the premium and the strike price paid will form part of the writer's cost base of the underlying asset for CGT purposes.

This may have practical implications for writers of the options where the premium is received in a different financial year to the payment of the strike price and acquisition of the underlying capital asset.

Taker of the Option

A taker will generally hold an option on capital account where an underlying capital transaction is being hedged. Consequently, any income tax implications will be determined in accordance with the CGT provisions.

At the time the premium is paid, there are no taxation consequences for the taker in respect of any premium paid for options which are held on capital account.

Where an option on capital account lapses, the taker will realise a capital loss at this time equal to the amount of the premium paid. When an option is settled or closed-out, the taker will realise a capital gain or loss depending on the amount paid (being the premium plus any incidental costs) for the option and the amount received on settlement.

Exercising a Call Option

Where a call option is exercised, the option premium and exercise price will form part of the cost base of the underlying asset for the taker.

Exercising a Put Option

Where a put option is exercised, the taker will generally deduct the option price from the proceeds received on the disposal of the underlying asset.

11. Goods and services tax

The purchase and disposal of options over securities and the share price index by investors is not subject to GST.

12. LEPOs and cash settled ETOs

For LEPOs and cash settled ETOs, the net profits approach may be regarded as the preferred tax method.

See

http://www.asx.com.au/documents/products/taxation_of_exchange_traded_options_may_2011.pdf for further discussion.

MORRISON SECURITIES PTY LIMITED
ABN 50 001 430 342 AFSL No. 241737 (Morrison Securities)

1. INSTRUCTIONS

1.1 ASX Derivative Products

The Client may from time to time instruct the Intermediary to deal in the following kinds of derivatives which are traded on ASX:

- Options Market Contracts (sometimes referred to as Exchange Traded Options); and
- other kinds of derivatives traded on ASX, but not including Futures Market Contracts (**ASX Derivative Products**).

1.2 Authorisation of additional ASX Derivative Products

If the Client gives instructions to the Intermediary to deal in a Derivative Product in which the Intermediary is not authorised to deal under this clause, those instructions are taken to vary this agreement to authorise the Intermediary to deal in that Derivative Product under this clause.

1.3 Orders and instructions

If the Client places an Order with the Intermediary, then the Intermediary, as the Client's agent (and not as the agent of Morrison Securities), will communicate the Client's Order to Morrison Securities and other instructions or information to Morrison Securities as appropriate.

Morrison Securities will not act on any Orders or other instructions or information communicated directly to it by the Client (and not through the Intermediary). The Client may only terminate the Intermediary's authority to act on the Client's behalf by terminating this agreement. A reference in this agreement to an Order or instruction from the Client is a reference to an Order or instruction from the Intermediary as the Client's agent.

Morrison Securities may at any time, in its absolute discretion, refuse to accept any Order from, or execute Orders for, the Client.

1.4 Execution of Orders, and Crossings

Subject to any instructions from the Client, Morrison Securities will generally execute Orders in the sequence in which they are received. However, the Client acknowledges and agrees that:

- the Client's Order may be automatically crossed against other orders before reaching the market;
- the Client will be charged the normal rate of commission by the Intermediary for Orders which are crossed with Morrison Securities principal orders; and
- Morrison Securities may not be aware of principal orders that are being (or may be) executed, and that direct market access arrangements and program trading may make it impossible to prevent principal orders from being executed at the same time as (or before) the Client's Order. Accordingly, the Client agrees that Morrison Securities may execute principal orders where the Client's Order on the same terms is outstanding and that this agreement constitutes disclosure as required by ASIC Market Integrity Rule 5.1.8.

1.5 Right to refuse to deal

The Client acknowledges that:

- [ASX Minimum Term 4, ASIC Minimum Term 3.1.7(1)(d)(vi) and ASX Clear Minimum Term 4]** Morrison Securities may at any time refuse to deal in, or may limit dealings in, ASX Derivative Products for the Client. Morrison Securities will notify the Client of any refusal or limitation as soon as practicable. 6. The services we offer

General advice and execution only services

Morrison Securities provides to retail clients a general advice and execution only service under which Morrison Securities:

- executes orders on ASX and / or Chi-X to buy and sell traded products (such as shares, debentures, options, interests in managed investment schemes and warrants quoted on ASX); and
- executes orders on ASX to buy, sell, close out and exercise Derivatives (such as ETOs and LEPOs);
- undertakes other dealings in financial products.

Before Morrison Securities can execute a transaction in ETOs or LEPOs on your behalf, you will need to enter into a derivatives client agreement with Morrison Securities. If you are a retail client, Morrison Securities will also be obliged to give you a PDS relating to ETOs and LEPOs. The PDS will contain information concerning ETOs to assist you in deciding whether those products are appropriate for your needs.

If a Relevant Licensee arranges for Morrison Securities to execute a transaction on ASX or Chi-X on your behalf, the Relevant Licensee does so as your agent, and not as the agent of Morrison Securities. If a Relevant Licensee arranges for Morrison Securities to execute a transaction on ASX or Chi-X on your behalf, you will be a client of both Morrison Securities and the Relevant Licensee. If you are a retail client, the Relevant Licensee will be required to give you its Financial Services Guide. It may also be obliged to give you a PDS in respect of the financial products in which you wish to trade, such as ETOs or LEPOs.

Clearing and settlement of ASX transactions

Settlement and clearing of transactions executed by Morrison Securities through ASX is also undertaken by Morrison Securities. Accordingly, if Morrison Securities executes a transaction on ASX on your behalf, you will owe your settlement obligations in respect of that transaction directly to Morrison Securities. If a Relevant Licensee arranged for your Morrison Securities to execute the transaction on your behalf, you will owe your settlement obligations in respect of that transaction directly to Morrison Securities, and not

to that Relevant Licensee.

Morrison Securities may clear a transaction in ETOs executed on ASX by another Participant of ASX Group if the transaction is "given up" to Morrison Securities. If Morrison Securities accepts the "give up" of such a transaction executed for you, Morrison Securities will carry the settlement obligations in respect of that transaction. For this purpose, you will become a client of Morrison Securities and you will owe your settlement obligations in respect of that transaction directly to us and not to the other Participant.

Before Morrison Securities can accept the "give up" to it of a transaction in ETO executed for you, you will need to enter into a derivatives client agreement with Morrison Securities. Again, you may be provided with a PDS relating to ETOs.

Arranging transactions in securities on international markets

Morrison Securities may also arrange (or may be engaged by your Relevant Licensee to arrange) for the execution, clearing and settlement services in securities on international markets for you. This means that Morrison Securities will arrange for the execution, clearing and settlement of the transaction with an entity which holds the appropriate authorisation to do so in that market (**International Securities Trader**).

If you are client of a Relevant Licensee, you may effect an international securities transaction on an international market by providing instructions to the Relevant Licensee. The Relevant Licensee, acting as your agent, will then communicate your instructions to Morrison Securities who, in acting for you, will communicate them to the International Securities Trader for fulfilment through Morrison Securities Account with that International Securities Trader. Securities traded on your behalf using Morrison Securities Account will be traded beneficially for you by Morrison Securities. For this purpose, you will become Morrison Securities client, but not the client of the International Securities Trader. Morrison Securities will also arrange for the International Securities Trader to clear and settle all transactions in securities that it has executed on your behalf under this arrangement. Accordingly, Morrison Securities will carry the settlement obligations in respect of those transactions. For this purpose, you will become a client of Morrison Securities and you will owe your settlement obligations in respect of those transactions directly to Morrison Securities and not to the Relevant Licensee or the International Securities Trader.

CHESS Sponsorship services

Morrison Securities may act as a CHESS Sponsoring Participant for you. If you are to be CHESS sponsored by Morrison Securities, you must enter into a Sponsorship Agreement with Morrison Securities. Morrison Securities may also arrange foreign exchange transactions for you in connection with transactions in securities on international markets.

Introduction to margin lending services

Morrison Securities does not issue margin lending facilities, but can introduce you to margin lending facility providers approved for settlement purposes by Morrison Securities. Morrison Securities can also provide you with general advice relating to margin lending services, and arrange for the provision of those services to you by a margin lending facility provider.

Services provided by Morrison Securities representatives

While Morrison Securities is authorised in its own right to provide the above-named services, Morrison Securities representatives may be authorised by Morrison Securities to provide all, or only some of those financial services. The products and services they are authorised to provide will depend on their experience and qualifications with respect to each product or service, and is outlined in any attached Morrison Securities Representative Profile for authorised representatives.

Accordingly, you will not be provided with a Statement of Advice.

8. How you may provide instructions to us

You may only provide instructions to us in accordance with your client agreement with us. That agreement might require that, if you wish to provide us with instructions, you must do so only through the Relevant Licensee. That agreement might permit you to provide instructions to us directly (such as through a DMA Service) or

through the Relevant Licensee.

9. How do we charge for our services?

We do not charge you fees for the services that we may provide to you.

Instead, the Relevant Licensee may charge you fees in respect of those transactions executed by Morrison Securities on your behalf. However, the Relevant Licensee (not Morrison Securities) determines the amount and structure of any such fees. The information concerning the fees which the Relevant Licensee may charge can be obtained directly from the Relevant Licensee. Morrison Securities will charge the Relevant Licensee a fee for those transactions executed through ASX by Morrison Securities on your behalf (**Execution Fee**).

In addition to the Execution Fee, Morrison Securities may also charge a range of fees to the Relevant Licensee including a fixed monthly fee, a fee per trade, a fee per service and other fees.

10. Commissions and other benefits from third parties
